

MR STANFORD

Pray for Rain

Mr Stanford Introduce their first women's collection

Mr Stanford represents the very best of British design and have been designing and crafting luxury men's umbrellas since 2015. Introduced for 2019 is their first women's collection, Tokyo which is available in three stunning colours.

Using bespoke woven fabrics from Italy, Mr Stanford fuse together traditional manufacturing techniques and modern technologies to create the incredible umbrellas. Heat transfer foils, digital printing, lacquering, rose gold and nickel plated finishes have all been used to create their seasonal collections.

Smaller than the classic men's umbrella at 108cm diameter and with a smaller handle the light weight Tokyo is the perfect ladies accessory. The umbrella has a solid shaft with a handle carved from a single piece of scorched maple. The umbrella canopy is made from a double layer of premium polyester pongee and has a contrasting rosette on the slider.

The ultimate accessory Mr Stanford will make sure that you look forward to rainy days.
